

Leandro Fiadone

Full Stack Developer

leanfiadone@gmail.com

Cel. +54 11-5127-5282

Saavedra, Buenos Aires - Argentina.

[LinkedIn](#) [Github](#) [Portfolio Personal](#)

Full Stack Developer with experience in NodeJS, React, Redux, and SQL, with training in Web Design and Audiovisual Production. My perseverance, innovation, and leadership in individual and group projects, along with my ability to work in a team and communicate effectively, have equipped me to face challenges with creativity and flexibility. My open mind and active listening skills allow me to collaborate and lead successfully.

TECHNOLOGIES

Programming Languages: JavaScript, TypeScript, Python, Sass

Framework Tools: React, Next.js, Redux, Zustand

Database: MongoDB, Postgres, Sequelize

Tools: Git, Jira, Slack Agile: Scrum

PROFESSIONAL EXPERIENCE

- **Front-End Developer** <https://app.pl4nner.com/> (March 2023 - Now)

Specialized in React, I create user interfaces and interactive functionalities for web applications. I work collaboratively with designers and other developers to achieve a seamless and consistent user experience across all platforms. I am constantly updating my skills to stay up-to-date with the latest trends and front-end development technologies.

- **Video Production for** webpicking.com (2020-2022)

Expert in video editing for the YouTube channel of a specialized website in transport and logistics. With skills in video editing software and a focus on creating engaging and effective content, I strive to improve the visual and narrative quality of the videos to increase audience engagement and reinforce the website's online presence.

- **Billing Coordination for** webpicking.com (2017-2022)

Coordinated the billing of advertising slots for a transport and logistics website, ensuring compliance with deadlines and budgets, and accurate record-keeping and archiving of invoices.

- **Grupo RDT** (2015-2016)

Coordinated the placement of electoral advertising slots, meeting deadlines and budgets. Monitored and evaluated results to ensure effectiveness.

PROJECTS

Fullstack - Personal Portfolio

Oct. - Nov. 2022

I developed a personal portfolio using NextJs, Tailwind, and Sanity. I was responsible for the website's structure and design, as well as managing content through Sanity. I also integrated GitHub for an organized workflow. This project was an opportunity to develop my skills in web development and build an effective and professional portfolio.

Front End Web Developer - BarberApp

Jul. - Ago. 2022

Henry Bootcamp, Buenos Aires, Argentina.

Group project, creating a website for booking appointments at a barbershop + online store built on the same establishment. I participated in the design using CSS and Bootstrap, was in charge of the GitHub workflow, implemented JWT-based login, and handled private and public routes, among many other tasks.
